Enterprise Odoo ERP Solutions

Built for Your Growth

End-to-end Odoo implementation, data migration, custom module architecture, local payment gateway integration, and high compliance multi-company automation.

Dubai, UAE

Dhaka, Bangladesh

odoo Ready Partner

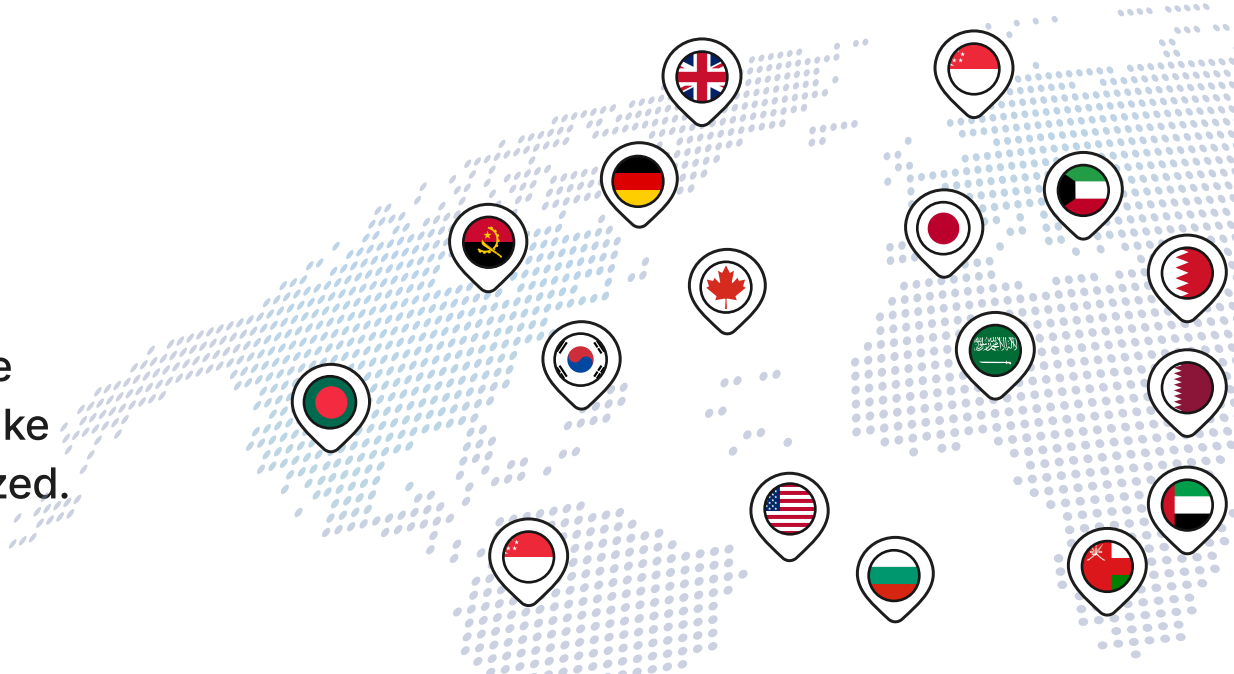
ELITE ODOO EXPERTISE

END-TO-END ERP TRANSFORMATION

60+	15+	20+	v18-19	100%
Odoo Reference Users	Enterprise ERP Clients	Odoo Professionals	Certified Expert Team	Client Retention

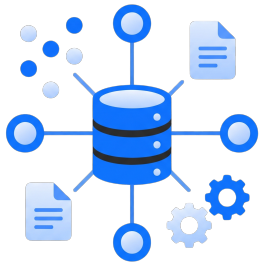
Softeko is a specialist Odoo implementation partner. We help businesses bring their sales, inventory, accounting, and daily operations into one connected platform.

Instead of using multiple disconnected software, we customize Odoo to fit exactly how your company works. Our goal is to make your business processes faster, easier, and much more organized.



WHY ODOO IS THE RIGHT CHOICE?

ONE CONNECTED SYSTEM INSTEAD OF SCATTERED SOFTWARE

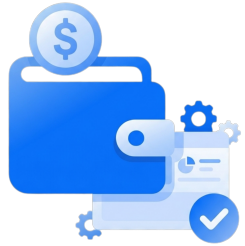


Everything in One Place

Stop using disconnected apps and spreadsheets. Odoo connects your sales, inventory, accounting, and HR into one single platform, sharing real-time business data.

Grows With Your Business

You do not have to buy everything at once. Start with the basic modules you need right now, and easily add new apps later as your business grows and expands.



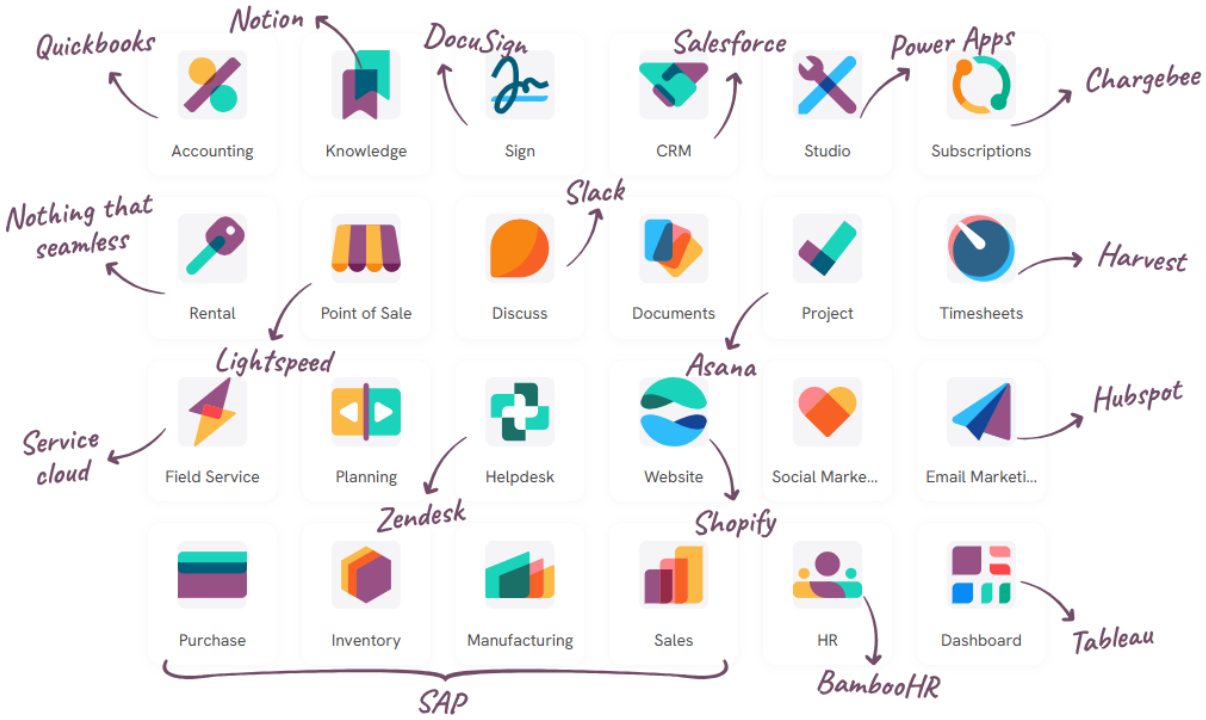
Easy to Use & Cost-Effective

Unlike old and complicated ERP systems, Odoo is highly modern and very easy to learn. You get enterprise-level features without paying a massive price tag.

WHY ODOO? (VISUAL COMPARISON) - THE ECOSYSTEM

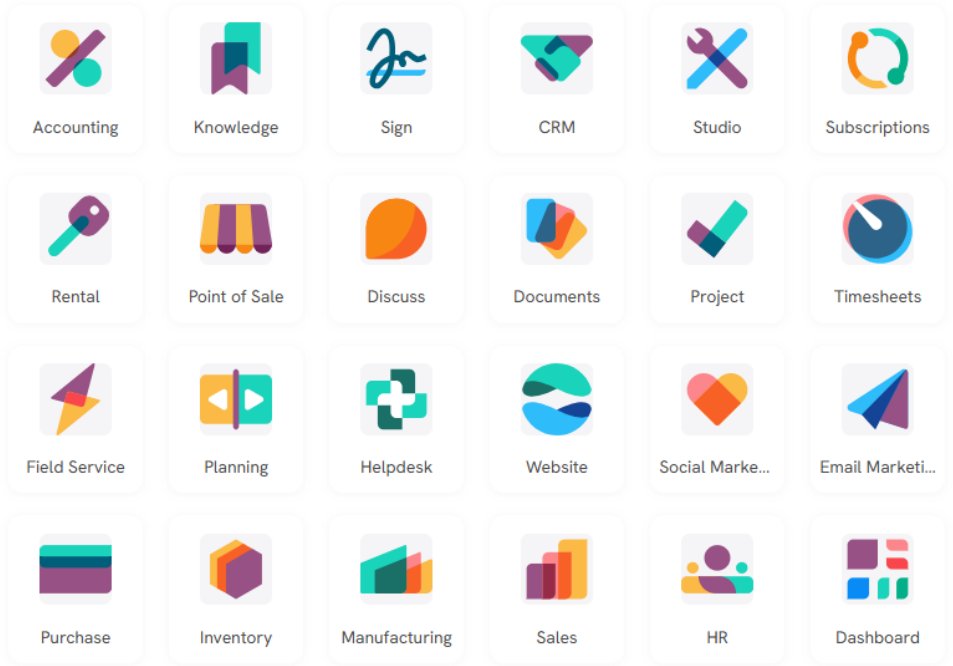
ONE PLATFORM TO REPLACE THEM ALL

Without Odoo: Disconnected & Expensive



Paying for 15+ different subscriptions, facing disconnected data, and struggling with complex third-party integrations.

With Odoo: Unified & Seamless



Everything you need in one single, fully integrated enterprise platform. One database, zero integration headaches, and massive cost savings.

COMPREHENSIVE ODOO ERP SOLUTIONS

TAM Trading FZ-LLC Multi-Entity GCC ERP

Ongoing

TAM Group (TAM Trading FZ-LLC, TAM Al Arabia Trading Co., TAM Gulf) is a regional distributor of industrial chemicals and raw materials, including soda ash, sodium bicarbonate, citric acid and fiberglass, operating across the UAE, KSA and Bahrain.

Challenge

Managing distribution across three GCC entities, with bulk cargo repackaged into multiple pack sizes, strict batch and expiry control, and compliance documentation across the UAE, KSA and Bahrain.

Solution

A unified multi-company Odoo ERP covering procurement, landed costing, bulk-to-bagged conversion, warehouse operations, intercompany supply and financial controls.

Impact

Month-end close reduced from 12 to 5 days, credit-limit overruns cut by 90%, and landed-cost accuracy improved to 99%.

Features Implemented

- Multi-company setup for UAE, KSA and Bahrain with intercompany supply
- Port-to-port (CFR / CIF / FOB) and ex-warehouse shipment models
- Landed-cost engine: supplier price, ocean freight, customs duty, bagging losses
- Bulk-to-bagged conversion (1.25 MT jumbo, 25 kg palletized) with process-loss accounting
- FEFO picking, buffer stock and GS1 barcode / pallet tracking
- Customer document sets: invoice, packing list, certificate of origin, COA, MSDS
- 7-day quote validity with expiry alerts and commission-on-cash for sales reps
- Three-way matching, Reverse Charge Mechanism (RCM) and multi-currency IFRS 15 revenue
- Automatic delivery block on credit-limit breach
- Biometric device integration with live attendance data sync into Odoo for attendance management

Tools Used

odoo 18 · python · PostgreSQL · docker · odoo.sh

Proposed Module Lists

- Purchase
- Inventory
- Sales
- Accounting
- Barcode

سهل باك
Sahl Pack

Modern Sahl Industries / Sahlpack (Flexible Packaging MRP)

Modern Sahl Industries (Sahlpack), operating under TAM Trading FZ LLC, is a made-to-order flexible packaging manufacturer in Hamriyah Free Zone, Sharjah, UAE, serving coffee, food and beverage, snack and consumer goods clients across the GCC.

Ongoing

Challenge

Made-to-order jobs with varied pouch formats, laminate structures and finishes, needing accurate job costing, material traceability and payment control across a five-stage production process.

Solution

An Odoo ERP covering the full job lifecycle, from artwork and quotation through printing, lamination, slitting and pouch conversion to dispatch.

Impact

Material wastage reduced by 18%, order-to-dispatch cycle time shortened by 30%, and real-time job costing for every order.

Features Implemented

- Payment Lock workflow controls on orders and dispatch
- Batch/lot FIFO raw material tracking
- Automated job code management linked to Graphic Design Numbers (GDNs)
- Job costing from barrier specs, film micron thickness and machine runnability
- Production routing: pre-press, flexo printing, lamination, slitting, pouch conversion
- In-process quality gates for seal integrity, artwork precision and runnability
- Product configuration for pouches, roll stock and labels, with finish and accessory options

Tools Used

odoo · python · PostgreSQL · docker · Jira

Proposed Module Lists

- Manufacturing
- Quality
- Inventory
- Sales
- Accounting

DOUR Sportswear Brand & E-Commerce

Official sportswear partner of the Bangladesh Football Federation (BFF)

Challenge

No customer-facing digital channel and no online order management.

Solution

An Odoo eCommerce storefront and customer portal integrated with inventory and ongoing website management.

Impact

Online orders grew to 35% of total sales, with order processing time cut by 50%.

Features Implemented

- eCommerce storefront with product variants
- Customer portal with order tracking
- Local payment gateway integration (bKash, Nagad, SSLCommerz)
- POS and online stock synchronization
- BUSINESS FORMS
- Steadfast courier integration for order dispatch and tracking
- B2B ordering and CRM
- Ongoing website management and support

Tools Used

odoo · python · PostgreSQL

Proposed Module Lists

- Website
- eCommerce
- Inventory
- Sales
- Accounting

Shahadat Shaharear & Kibria, Chartered Accountants

Challenge

Fragmented client, billing and project tracking across manual tools.

Solution

A centralized Odoo platform for accounting, client management and engagement tracking.

Impact

Billing cycle reduced from 10 to 4 days and client reporting turnaround improved by 40%.

Features Implemented

- Accounting and invoicing
- Project and timesheet tracking
- Client portal
- Expense management
- HR and payroll
- Document management
- CRM

Tools Used

odoo, python, PostgreSQL

Proposed Module Lists

- Accounting
- Project
- Timesheets
- Expenses
- Payroll
- Documents
- CRM

WHY CHOOSE SOFTEKO?

Deep Expertise

- Industry-specific workflows
- Certified Odoo developers
- Proven track record

Custom Engineering

- Custom module development
- Seamless 3rd-party API sync
- business logic

Zero-Risk Deployment

- Secure data migration
- No operational downtime
- Rigorous pre-launch testing

Continuous Support

- Dedicated AMC packages
- Ongoing system optimization
- Hands-on team training

Softeko vs Traditional ERP Agencies

Metric	Softeko	Traditional ERP Agencies
Approach	Business-first, workflow tailored	One-size-fits-all software dump
Customization	Deep module & core engineering	Basic UI adjustments only
Data Migration	Secure, zero-loss managed transfer	High risk, mostly client-managed
Post-Launch	Dedicated AMC & continuous upgrades	Limited support after go-live
